

**H**igh quality preventive medicine is essential to providing your horse a long, healthy, useful life. By delivering excellent veterinary care at an affordable price, the Elkhorn Veterinary Clinic is intent on being a partner with you in the health care of your horse.

The Elkhorn Veterinary Clinic Equine Wellness Program offers each horse the veterinary care that is considered essential to good equine health at a substantial savings to his owner. Additionally, after enrolling in the Equine Wellness Program, you may elect to further your savings on other products and services that the enrolled horse receives throughout the year.

**THE FEE FOR THE 2012  
EQUINE WELLNESS PROGRAM IS \$310.00.**

The Equine Wellness Program fee represents a greater than **25% savings** on the included vaccinations and services. In addition to the initial savings, clients are protected from inflationary price increases throughout the year. To be eligible for these savings, owners must pay for the Wellness Program in full prior their horse's initial veterinary wellness program appointment.

**ADDITIONAL WELLNESS DISCOUNTS**

We have extended your savings opportunities to included services that may be recommended for your horse at the wellness exam or subsequent visits. Horses enrolled in the Wellness Program will be eligible for a 10% discount on the following services, *provided payment is made at the time service is delivered.*

- **Lameness Exam &/or Radiographs** - throughout the year, any lameness exams necessary for your horse as well as any radiographs recommended by your veterinarian.
- **Large Animal Profile** - a baseline complete blood count with differential, blood chemistry, and fibrinogen may be used to monitor trends or identify health concerns in your horse.
- **Serum Glucose/Insulin Test** - aids in identifying horses with equine metabolic syndrome, a rapidly emerging health concern in today's horse.
- **Microchipping** - protect your horse from loss due to theft or disaster. Microchip is a permanent means of identification, used world-wide.
